

R&DAA

INFORMATION SHEET

APRIL 2021

COVID REGULATIONS

We appear to be heading in the right direction to getting back to normal. We have match fishing and night fishing back on our venues and hopefully will get back to holding normal meetings fairly soon.

JUNIOR AND TUITION SESSIONS

Dates for these will be announced soon and we will soon be installing a classroom/ meeting room on site at Farnham Flint and this will be used when periods of rain interrupt the sessions. There will also be room for the tuition equipment as well. Our E.C. Meetings will also be held here.

24 HOUR PERMITS & CONCESSIONS

Orders for new 24 Hour Permits (replacing Night Permits) are going very well and we look like having a sell out for the North, South and Platinum permits. Bronze will not be limited at present. The General Permits will be available from the beginning of May both online and in shops. Prices for the General permits remain the same.

MATCH HUT

The Match Hut has undergone a re-furb and at present is open for click and collect. Piers is back in charge and will deal with all your needs.

WHISTLEY MILL

The access road has now been completed and the venue is now back open. We thank you all for your patience during this closure. Some of the trees in the river have been removed but more work will be carried out later in the year. There is also an upgraded car park area just inside the access gate that will be used by members wishing to fish the new upstream stretch of the Loddon that we have recently acquired.

WORK PARTIES

The Friday Club and the monthly work parties will now re-commence with the first work party being held on the 10th April meeting at 10am at the Match Hut. Any persons wanting to help then please turn up at 10am on a Friday or on the 10th April.

MATCHES ON WILLMOTTS POOL

We are proposing to hold some 3 hour evening matches on this venue in the near future. They will be limited in numbers and details will be shown on Facebook and the website.

VIDEOS ONLINE

Nick Babington has come on board to help us with our media coverage and we are now producing video coverage each month on different RDAA topics including fish pics, venue updates and tips. I can see a time coming when this method replaces our Information Sheet. These can be found on the Reading & District Facebook page.

FISHERIES RULES

Some changes have been made to these so please update yourself before going on to venues.
