

**R&DAA**  
**INFORMATION SHEET**  
**NOVEMBER 2020**

**GENERAL SECRETARYS REPORT**

**TREASURER**

Keith is now out of hospital and carrying out his recuperation at home. He has taken back the responsibility of looking after our finances..

**MEMBERSHIP**

We still continue to receive permit applications but a a slower rate than before

**WORK PARTIES**

The Friday Club will re-start their meetings on Friday 6th November meeting up at the match hut at Farnham Flint at 10am. Please just turn up if you would like to assist. The weekend work parties will also recommence on the weekend of 14<sup>th</sup> November. Details will be displayed later on our Facebook page.

**WATER BOOKING SHEET**

I have sent out the forms to all of our Clubs who use the RDAA venues for completion by November 27<sup>th</sup>. Please contact me if you haven't received one.

**FISHERIES OFFICERS REPORT.**

**DEPUTY FISHERIES OFFICER**

This last month saw Jamie Stansfield our new deputy fisheries officer starting his role. He has hit the ground running and even at this early stage it is clear we have made the right choice. Jamie and I have spent a good proportion of time laying a new pathway from Searles farm lane to the causeway on Farnham Flint. We will continue this path along the 'bay' bank on Englefield to the car park. We did start, however with the wet weather it was clear early on it wouldn't be possible. Hopefully, the weather will improve enough for us to finish in the coming weeks

**VEGETATION**

The high winds normally associated with this time of year are, as usual causing issues with trees, we currently have several venues where trees have either blocked paths or fallen into the water. We will need to hire in some machinery to clear some, so please be patient, we will get around to dealing with them asap. If you see a tree that has been down some time and may have been missed then please report it on [info@rdaa.co.uk](mailto:info@rdaa.co.uk)

## **ROACH PROJECT**

Our fish rearing site had its autumn inspection last week and was again given a clear bill of health. Next year, now I have a extra pair of hands, I will be ramping things up and using our small but efficient growing on facilities, to expand into other river species.

## **JUNCTION !2**

The J12 winter syndicate was again filled in next to no time, hopefully this year the floods will allow the guys to fish a little more affectively.

.
